received

## OUR MISSION:

To improve the quality of life for the underprivileged groups (youth, women and children) within communities through, empowerment, education, improve healthcare services, human right promotion and protection, economic self-reliance, and capacity building using a community centered approach and advocacy.

## OUR VISION:

To to build a strong foundation for a better future of our communities .

## Our vision for next five years (5)

- Suitable income for 5500 underprivladged families.
- Establishment for family counseling center
- Promotion of sustainable secondary level institution
- Demonstration unit and introduction of farm new technologies
- Establishment of training Centers
- 

For a given society to become aggregate and equal, there should be a mutual integration and cohabitation therein of both the rural and urban masses, the poor and the rich, the physically impaired and handicap; hence a balanced community wherein equal right of men, women, the boy and girl children are guaranteed and protected without bais and injustice.
